## HONEYWELL FORGE PERFORMANCE+ FOR BUILDINGS | SITE PERFORMANCE

### 1 WHAT IS HONEYWELL FORGE PERFORMANCE+ FOR BUILDINGS | PREDICTIVE MAINTENANCE

Predictive Maintenance allows faster response to operations issues at a portfolio level. Many issues can be resolved at a centralized operations center, reducing response time and maintenance calls, and allowing for centralization of operational control room, further reducing cost.

### 2 HOW DOES CENTRALIZED CONTROL MAKE MONEY FOR ME?

You can reduce workforce needs or re-assign your workforce to provide other value add activities. Also, with portfolio level control, there is less need for maintenance calls – less trucks on the road means reduced OPEX costs

### 3 CAN IT WORK WITH A NON-HONEYWELL BUILDING MANAGEMENT SYSTEM?

Predictive Maintenance is an open system supporting 3rd party BMS'

### 4 CAN IT WORK WITH A NON-HONEYWELL BUILDING MANAGEMENT SYSTEM?

Predictive Maintenance can support complex sites
